About The Show

The Rocktacademy is an action-packed, live music show suitable for nursery and primary aged children where Rocktopus, the world's number one rock band for kids, unleash your inner rockstar.

Whilst rocking out their energetic set of original, catchy and interactive rock songs, from their popular first and second albums, Rocktopus impart the 10 essential skills which every budding rockstar needs to master before graduating from the Rocktacademy. After assimilating all of the skills, including the 'Rockstar Moves', getting 'Performance Fit', and 'Having a Jam', the audience form their own brand new rock band and undertake the ultimate, final challenge in order to reach true rockstar status: Can they achieve the impossible and create a brand new, rocking song that will become the show's climax as the clock ticks down to graduation time?! It's time to rock!

The Company

Rocktopus formed when **Andy Hawkings** and **Tom Veck** left their jobs as **primary teachers** and decided to take their passion for inspiring the next generation of musicians and creatives to the stage. Since their formation in 2015, **Rocktopus have sold out 240 seat capacity theatres and 600 capacity standing venues** with their interactive shows 'The Big Gig' and 'Rock The Party'. Rocktacademy is a natural evolution of their previous work; combining the very best parts from their different live shows and weaving it all together into an hour of non-stop music and audience participation.

Education is still a fundamental aspect of Rocktopus and, to date, Tom and Andy have injected their passion for music and creativity into over 120 schools across the country; working with thousands of children to create over 300 original songs as part of their interactive 'Rock The Sport' workshops.

Rocktopus are proud to be **joined onstage by their professional dancers - The Oceanettes.**
